

**Charles Smith** is a naturalist, educator, and conservationist employed by Cornell University, where he teaches undergraduate courses in field natural history and bird conservation. He has served as an advisor and researcher on bird and biodiversity conservation for numerous state and federal agencies, including the NY State Department of Environmental Conservation; the NY State Office of Parks, Recreation and Historic Preservation; USDA/Forest Service; USDA/Natural Resources Conservation Service; US Environmental Protection Agency; US Fish and Wildlife Service; and US Geological Survey (Biological Resources Division). Charlie has published more than 100 popular and technical articles on bird conservation and related issues, and was responsible for a local radio program, "Know Your Birds," for more than ten years. His hobbies include nature photography, cooking, studying plants, dragonflies, butterflies, birds, and other wildlife. He has lived in the Town of Dryden for more than 30 years and currently resides with his wife in the Hammond Hill area.
